

MetaMask Tutorial (Testnet)

How to add a custom network (Wanchain Testnet) on MetaMask

1. Click on the network selector

2. Click on 'Custom RPC'

3. Fill out the requested information

Network Name: Wanchain Testnet

New RPC URL: <https://gwan-ssl.wandevs.org:46891>

Chain ID: 999

Current symbol: WAN

< Networks

×

A malicious network provider can lie about the state of the blockchain and record your network activity. Only add custom networks you trust.

Network Name

Wanchain TestNet

New RPC URL

<https://gwan-ssl.wandevs.org:46891>

Chain ID ⓘ

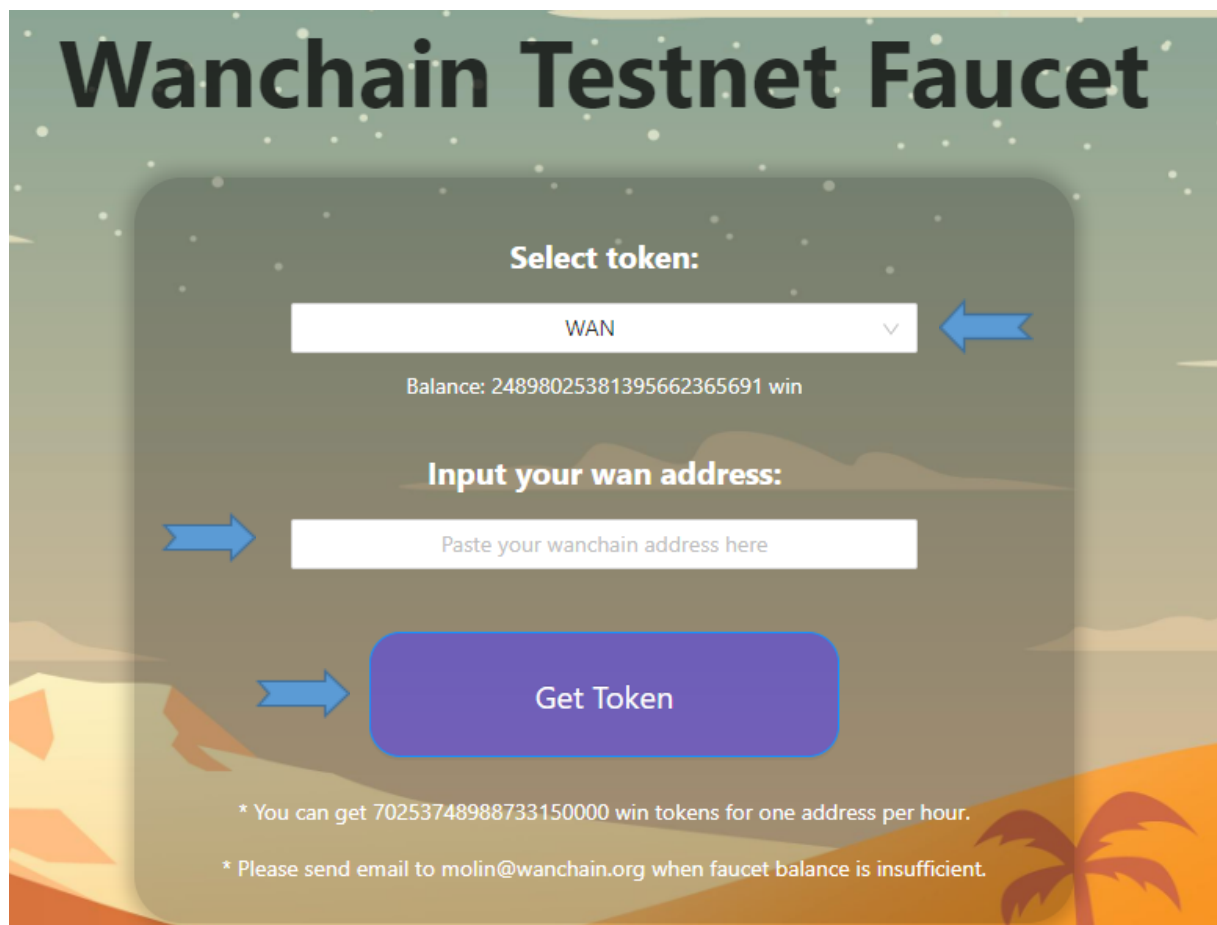

999

Currency Symbol (optional)

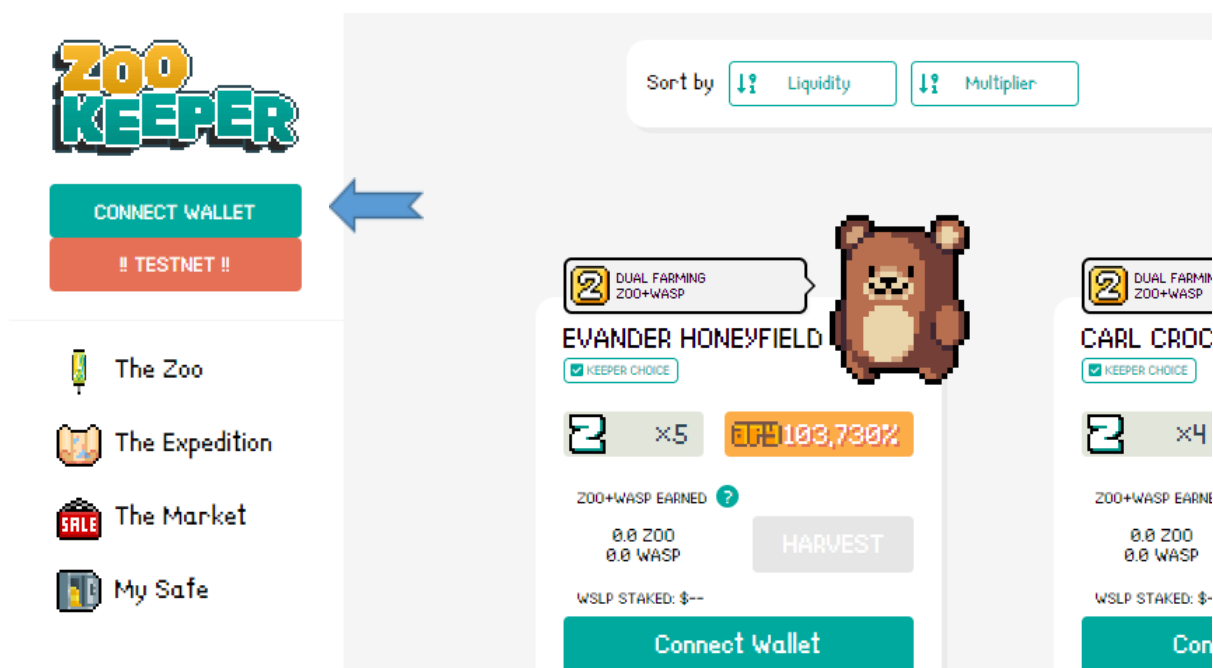

WAN

Block Explorer URL (optional)

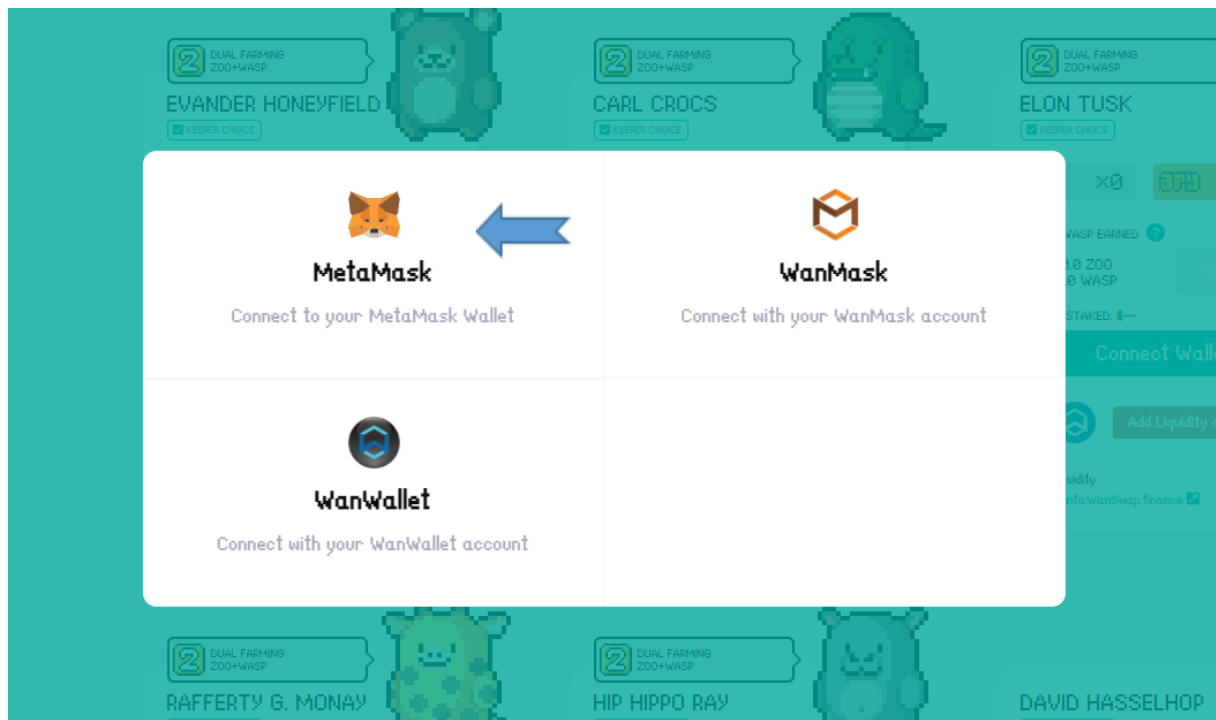

4. For testnet tokens, visit <https://wanchain-faucet.vercel.app>, select the testnet tokens you need, enter your WAN address and click “Get Token”. Testnet tokens will be distributed to your provided address.

5. Head on over to <https://preview.zookeeper.finance/> and click “CONNECT WALLET”

6. On the pop up screen, click “MetaMask”

7. On MetaMask, click on “Connect” and your account will then be connected to ZooKeeper. Happy testing!
